Day 2			
Day 3			
Day 4			
Day 5			
Day 6			
Day 7			

The handling arrangements for persons tested positive will be aligned with that for local cases

- Vaccine Pass will be switched to Red Code
- Please provide information to the Centre for Health Protection through the online platforms (for **nucleic acid tests** or **RATs**)
- If the household environment is not suitable for isolation or the original hotel is not available for **on-site isolation**, inbound persons tested positive would be sent to Community Isolation Facility

* except inbound persons aged below three years old

^ Inbound persons aged three years old or above on the date of arrival at Hong Kong have to undergo PCR-based nucleic acid testing by professional swab sampling at **Community Testing Centres / community testing stations** or **ad-hoc mobile specimen collection stations** (for free), or at **recognised local medical testing institutions** (self-paid), as specified in the relevant testing requirement above

Inbound persons must keep the photos of their RAT results and SMS of their PCR nucleic acid test results in case of compliance checking.

For detailed boarding, medical surveillance and self-monitoring requirements as well as other details, you should also refer to the latest press releases, relevant information on the webpage and FAQs
