Boarding and quarantine arrangements for persons arriving at Hong Kong under "vaccine bubble" concept

effective from 30 June 2021 at 0.00am

The boarding and quarantine arrangements applicable to a person arriving at Hong Kong depend on:

- 

1. Whether the person arriving at Hong Kong is a Hong Kong resident (HKR)
- 

2. What places the person arriving at Hong Kong has stayed in on the day of boarding for/arrival at Hong Kong, or the 21 days before that day (i.e. the relevant period)
- 

3. Whether the person arriving at Hong Kong is fully vaccinated

 - Fully vaccinated means the suggested dosage has been administered in accordance with the relevant guidelines of a COVID-19 vaccination course at least 14 days prior to arrival at Hong Kong.
- 

4. Whether the vaccinated person possesses positive result proof of a recognised serology antibody test conducted within the past 3 months (if applicable)

 - Recognised serology antibody positive result proof refers to proof of a positive result in a designated format after receiving a designated serology antibody test by a recognised local medical laboratory.
