Criteria for Early Discharge from Isolation and Home Quarantine

Persons who are not applicable

The criteria for early discharge from isolation and home quarantine mentioned above is not applicable to those who have not been vaccinated or have only received one dose of COVID-19 vaccine, as well as household contacts of close contacts who only need to undergo home quarantine for four days under the "StayHomeSafe" Scheme.

For people who have not been vaccinated or have only received one dose of COVID-19 vaccine, no matter whether they are infected persons staying in CIFs, pending admission to hospitals or isolation facilities or close contacts under home quarantine, are required to undergo 14-day medical surveillance at CIF or home. They must also fulfil relevant testing requirements before being considered for completion of isolation or home quarantine.
